

## Design of Blow Moulds

By R.C. Batra

CBS Publishers & Distributors Pvt. Ltd., 2007. Softcover. Condition: New. First edition. Blow moulding is one of the major processes for mass production of hollow articles out of thermoplastics. Invented over fifty years ago to manufacture plastic bottles, it has matured into a versatile technique for producing highly complex hollow industrial components for application in diverse fields including the automobile sector. The book describes, in an easily understandable and practical manner, all aspects of the blow moulding process in general and of blow mould design in particular. It aims at providing the designer the latest information about the materials, machines, methods and moulds for creation of efficient tools for production of hollow articles for widely diverse applications. Printed Pages: 170.

### Reviews

*This is the finest book I have got to study right up until now. I am quite late in starting reading this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*-- Keanu Johns*

*This is the finest book I have read until now. It is filled with wisdom and knowledge. You can expect to like just how the author composes this ebook.*
