Scott compiled with the Financial Accounting Theory (6th Edition) seeks information framework of economics to explain the basic contradiction of the Financial Accounting encountered in the real world. and that as a financial and accounting information systems is difficult both to coordinate the relationship between shareholders and management authorities. they guarantee to meet the information needs of investors. The culprit for this phenomenon is the widespread existence of information asymmetry in the market economy. Therefore. in reality. will encounter investors how portfolio decisions. how the regulatory authority for accounting policy choices. company or corporate earnings management Why: so they need the Accounting Standards and Accounting Standards Board. Even play a corresponding role of the International Accounting Standards Board. In the same time. the various...
