

Report of the Surgeon General's Workshop on Osteoporosis and Bone Health (Paperback)

By Department of Health and Human Services

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English. Brand new Book. This nation faces a serious yet largely unknown health problem. More than one in 10 Americans either has or is at risk of developing a bone disease. Yet the vast majority of these individuals remain undiagnosed and untreated. As a result, bone disease exacts a huge toll on the nation. Osteoporosis, by far the most common bone disease, is responsible for approximately 1.5 million fractures each year. As many as 300,000 individuals who suffer an osteoporosis-related fracture die as a result of complications from the injury. Concerns about the large toll that bone diseases are inflicting on the nation has led the Surgeon General to launch a major campaign aimed at improving bone health. A core component of this campaign was the Surgeon General's Workshop on Osteoporosis and Bone Health, held December 12th and 13th of 2002 in Washington, DC. This meeting served as an opportunity for key stakeholders to provide input on the most important priorities for The Surgeon General's Report on Osteoporosis and Bone Health. The workshop was preceded by an invitation made through the Surgeon General's Website to the public to share...
